Leonardo Campitelli
Software Engineer

☎ 393431899 ✆ leonardo932.campitelli@gmail.com | [LinkedIn](#) | [Website](#) | [Github](#)

I am a Computer Engineer paired with great curiosity. My main desire is to design and develop useful tools and programs that will make other people's lives easier. I enjoy working in teams and I've been appreciated for my adaptability and time management skills as well as my never-ending enthusiasm.

I've been able to leave my own personal mark during my job by introducing or creating tools to improve or automate processes. I enjoy studying and never stop learning, keeping updated on the tech world news using multiple sources such as articles, newsletters and blogs.

CORE EXPERTISE

Fullstack Developer | GoLang | Java | Python | Typescript | Relational and Non-Relational Databases | Kafka Message Broker

Microservices Application Design and Development | REST | gRPC | protobuf | GraphQL

Git | Github Actions | Docker | Kubernetes | Linux | CLI

Time Management | Team Organization | Priority Planning | Documentation

English Language Level C1 Score 196

PROFESSIONAL EXPERIENCE

Middle Software Engineer ▪ Capgemini   2025-Today
- Reason with Clients about the best architecture and solutions to suit their needs
- Microservices applications design and development
- Improve work processes for me and my team using new tools and sharing documentation
- Jenkins Pipeline specifications and OpenShift cluster management

Software Engineer ▪ Moveax S.R.L.   2023-2025
- Architecture design and development of microservices applications
- Introduction of new open-source tools in the company that improved existing processes
- Great experience with Linux and Command Line Interface
- Collaboration with Third-Party Libraries and Ticket Management

Software Engineer ▪ Sara Assicurazioni S.P.A.   2022-2023
- Requirement gathering and development of applications for internal employee usage
- Salesforce Developer and Administration Certifications

EDUCATION

Master in digital platform technologies, Politecnico di Milano ▪ 2022-2023

Master's degree in engineering in computer science, La Sapienza Università di Roma ▪ 2020-2022 ▪ **110 cum Laude**

> Erasmus Program in Eindhoven, The Netherlands from 01/2020 to 07/2020

> Winner of the Master Excellence Program: Extra project activities supported by a professor for deserving students

Bachelor's degree in computer engineering, La Sapienza Università di Roma ▪ 2016-2019 ▪ **110 cum Laude**

> Winner of the Bachelor Excellence Program: Extra project activities supported by a professor for deserving students

PERSONAL INFORMATION

- Born in Rome, 02/08/1997.
- Driving License B1. Property Car.
- Plenty of experiences abroad, among those Bootcamps in Berlin, Cultural Exchanges in Helsinki and Summer Schools in Dublin.
- When I'm not coding, I spend my time playing video games, watching movies and having long walks. I also enjoy learning new things and I'm constantly keeping myself updated with newsletters and

development-related blogs. I am currently learning about Kubernetes and Linux Server management, as well as everything related to the Command Line Interface.
